

SL Series Shielded/Unshielded Multimedia Patch Panels

1933307-1, 1933308-1, 1933309-1, 1933310-1

Description

AMP NETCONNECT SL Series shielded/unshielded multimedia patch panels from Tyco Electronics offer a variety of features for terminating a wide array of SL Series form factor shielded or unshielded connectors, and inserts. The SL Series shielded/unshielded multimedia patch panels feature patent-pending integrated bonding technology allowing each shielded modular jack (if used) to be bonded together simply by snapping each jack into the interface housing. Each interface housing accommodates traditional labeling and icons and is front loadable, so installations are easier in tight spaces. Each panel has integrated studs for mounting a cable management bar directly to the panel in applications where a drilled and tapped rear mounting flange is not available (as in most cabinet applications). Best of all the panels look like standard UTP panels when installed, so your equipment room looks neater and more organized even when shielded connectors are installed.

Specification (text in brackets [] requires a choice)

Patch panels shall be [standard or angled] foot print, [1U, 24-port or 2U, 48-port], and shall accept SL Series form factor modular jacks and inserts. Patch panels shall be configured with front-loadable 6-port modules with individually replaceable ports, and accept optional icons or standard labeling. Each 6-port module shall feature an integrated load-bar which shall create a continuous ground path for each module. Patch panels shall be supplied unloaded.

Patch panels shall be AMP NETCONNECT part number [1933307-1, 1933308-1, 1933309-1 or 1933310-1].

Part Numbers

Description	Interface Housings	Panel Foot Print	Port Count	Part Numbers
SL Series Shielded/Unshielded Patch Panel, Multimedia (unloaded, no modular jacks)	Front Loading	Straight	24	1933307-1
			48	1933308-1
		Angled	24	1933309-1
			48	1933310-1

Technical Details

Materials

Connector Housing Interface (6-Pack Module) –	Polyester molding compound, black
Panel –	Steel, black powder coat
Screws –	10-32, black, trilobular screws with captive star-washer, per box
	12-24, black, trilobular screws with captive star-washer, per box
